SSM 40

BY SWEDE SHIP

Swede Ship 40 - An exclusive, fast, quiet, seaworthy and practical aluminum boat with exceptional maneuverability. The boat is designed and equipped for transports and overnight stays all year round. The big deck hatch gives access to the engine room. Two powerful diesels with drives are mounted in the professionally equipped and complete engine room. The cabin is flexibly installed to isolate engine and waterborne noise giving the best possible comfort on board. The driver and two passengers are seated in

high quality and damped seats giving the best comfort in a seaway. Aft in the main cabin two sofas and a removable table is provided. Below the sofa there is storage for plates, glasses and cutlery. The kitchenette includes a cooler, a sink and a stove. The forward cabin is furnished with a large V-shape bed, a wardrobe and a separate toilet. The large aft deck can be used for transport of goods or simply to enjoy sunny days.

SSM 40

BY SWEDE SHIP

At Swede Ship we are very proud of our professionally equipped and designed wheelhouse layouts and technical installations. International and national navies and sea rescue societies have taught us to build to very high standards.

The flexible installed wheelhouse insulates engine and waterborne noise providing an exceptionally quiet and comfortable driving environment. The three seats are individually adjustable and damped and contributes to a very good comfort underway. The instrumentation and layout is made for the best overview and usability.

The engine room installation is a delight for the eye and is built to a professional standard.

Note that the arrangement varies according to the choice of equipment.

The forepeak rooms a large V-shaped bed, a separate toilet compartment, a wardrobe and stowage. Spotlights are recessed in the ceiling. The aft part of the lounge has two sofas and a kitchenette with sink, fridge, stove and storage. Countertops are made of Corian, a hard and exclusive material that is durable and easy to keep clean. A folding table can be mounted in the aft part of the cabin between the sofas. The space under the sofas is equipped with drawers with practical furnishings for porcelain, glasses and cutlery. The engine room compartment is reached via a big hatch held up by gas springs. The large aft deck can be used for goods or as a sun deck. The aft platform includes an anchor box, a ladder and rooms a life raft.

Note that the arrangement varies according to the choice of equipment.
